

100+	SAR 20M+	97%	9 years
PROJECTS DELIVERED	PORTFOLIO VALUE	ON TIME, ON BUDGET	DELIVERY OWNERSHIP

S.01 PROFILE

Project and operations manager with nine years of end to end delivery ownership across more than 100 projects worth over SAR 20 million, for clients including Aramco, NEOM, KAUST, the National Water Company, the Ministry of Housing and the Red Sea Project, covering energy, water, healthcare, defence, research and giga project work. Holds a 97 percent on time and on budget record by controlling scope, schedule, cost, procurement, logistics, site work and quality in one accountable role.

S.02 PROFESSIONAL EXPERIENCE

Project Manager

Professional Touch for Trade and Industrial Services
Jeddah, Saudi Arabia | January 2017 to Present

Design, fabrication, transport, supply and installation of prefabricated buildings and MEP infrastructure for government, energy, water, healthcare and research sector clients.

DELIVERY RECORD

- Directed a portfolio of more than 100 projects valued above SAR 20 million from initiation through closeout, sustaining a 97 percent on time and on budget completion rate across concurrent multi site engagements.
- Owned the full delivery chain on every project, from scope definition and planning through procurement, logistics, site execution, quality control and handover, which removed handoff gaps between the commercial and the field functions.
- Completed a Ministry of Health approved isolation facility for the International Medical Centre in Jeddah in 20 days during the 2020 public health response, against a 45 day norm for comparable facilities in the same portfolio.

CLIENTS AND SITE EXECUTION

- Delivered facilities for Aramco, NEOM, KAUST, the National Water Company, the Ministry of Housing, the Red Sea Project, Archirodon and Masar (AHC), meeting client specific access, safety and documentation requirements on every site.
- Coordinated multidisciplinary site teams and consultants against approved drawings and technical submittals, closing the Aramco Petro V PMT, PID and contractor offices (1,800 sqm) and the Aramco ENPPI warehouses at Safaniyah (1,800 sqm) on schedule.
- Planned materials flow and site access around live client operations in restricted and remote settings including Jeddah Islamic Port, Aramco Safaniyah and Khurais, NEOM and the Red Sea coast at Umluj.

COMMERCIAL, SYSTEMS AND COMPLIANCE

- Negotiated supply and subcontract packages across multi tier vendor networks, protecting unit cost, delivery dates and specification compliance on materials and MEP systems.
- Coordinated the installation and site readiness of MEP, fire alarm and detection, fire suppression and low current systems, and managed safety system approvals covering materials, systems, installation and readiness for handover.
- Maintained audit ready records of contracts, technical submittals, approvals and decision logs, while carrying functional responsibility across procurement, sales, logistics, quality control, planning and collections.

S.03 SELECTED PROJECT PORTFOLIO

YEAR	CLIENT AND LOCATION	FACILITY DELIVERED	AREA
2026	Masar (AHC)	Contractor and consultant offices	800 sqm
2025	Aramco, Petro V	Project team and contractor offices (PMT, PID)	1,800 sqm
